

LUMOROL RK

Basic material for the formulation of liquid cleaning agents

Chemical composition

Combination of anionic and amphoteric surfactants

Appearance: clear, yellow liquid
Ionic character: anionic / amphoteric

Typical data

Active ingredient: 28 %

Application

LUMOROL RK is a mixture of anionic and amphoteric surfactants and emollients, based on renewable raw materials. It has very good cleaning and foaming properties and generates a dense and stable foam. It is suitable for the use in household and institutional cleaners.

Storage

LUMOROL RK is to be protected from heat above 30 °C and from frost.
