

# OXETAL 800/85

## Basic material for the formulation of detergents and cleansers

### Chemical composition

Fatty alcohol with 8 moles EO

Appearance: colourless liquid  
Ionic character: nonionic

### Typical data

Active ingredient: 85 %  
Cloud point (1 % in dist. water): 66 - 70 °C  
Solubility: clearly soluble in water

### Application

OXETAL 800/85 is used in washing, wetting, rinsing and cleaning agents as well as auxiliary products for textile, leather, paper and ceramic industries.

### Storage

Storage at low temperatures may cause turbidity or solidification which can be removed by gentle heating.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions they can serve only as a guide and are therefore offered without obligation. We ask you to observe the possible rights of third parties.
