

SUPRALAN UX

Soaking, scouring and degreasing agent for all kinds of fur skins; free from organic solvents

Chemical composition

Fatty alcohol polyglycol ether

Aspect:	colourless liquid
Active matter:	approx. 85 %
Ionogenicity:	non-ionic
pH (10 %):	approx. 6
Stability:	stable to neutral salts, bases and acids as well as chromium and aluminium salts in usual concentrations
Solubility:	soluble in water (clear to cloudy, depending on the temperature)
Storage stability:	at least 12 months when properly stored

Properties

SUPRALAN UX is characterized by its strong degreasing effect, high emulsifying capacity and soil removing properties.

The mechanical operations carried out later, e. g. fleshing, are substantially facilitated.

The outstanding effect of scouring and degreasing is also active in the cold bath.

Application

Preparation of the solution:

SUPRALAN UX can be added undiluted to the float.

Quantities (depending on the raw skin):

- Soaking:	0.5 - 1.0 ml/l SUPRALAN UX
- 1st scouring:	2.0 - 3.0 ml/l SUPRALAN UX
- 2nd scouring:	1.0 - 2.0 ml/l SUPRALAN UX

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions they can serve only as a guide and are therefore offered without obligation. We ask you to observe the possible rights of third parties.

SUPRALAN UX

Overdosage in running drums has to be avoided, as possibly a disturbing foam can develop.

When the product is diluted with water, the viscosity increases substantially in the concentration range of 30 - 50 % (based on the product). The gelatinous consistency disappears again when the product is further diluted. SUPRALAN UX is free of nonylphenol and of course biodegradable.
