

DOLATAN N

Synthetic neutralizing agent

Chemical composition

Organic buffer salts

Aspect:	light pink powder
Active matter:	min. 95 %
pH (10%):	approx. 7 - 8
Solubility:	readily soluble in water
Storage stability:	up to 12 months if properly stored

Properties

As synthetic neutralizing agent DOLATAN N can be used solely or in combination with other neutralizing agents:

- especially suitable for the neutralization of chrome tanned leathers
- strong buffer activity prevents excessive neutralization
- excellent fine grain through non astringent effect
- good evenness of dye

Application

All indications are based on the shaved weight.

Quantities of application

All chrome tanned leathers: 1,0 - 3,0 % DOLATAN N
