

ZETESAP 5165

Syndet base for the manufacturing of synthetic soap bars

Chemical composition

Blend of disodium fatty alcohol sulfosuccinate and sodium cocoyl isethionate with plasticizers and fillers

Appearance: white to ivory-coloured pellets
Ionic character: anionic

Application

ZETESAP 5165 is used for the production of syndet soap bars. It is possible to use a broad range of additives in ZETESAP 5165 because of its neutral pH value. ZETESAP 5165 is easy to be perfumed and coloured.

Manufacturing:

See ZETESAP brochure.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions they can serve only as a guide and are therefore offered without obligation. We ask you to observe the possible rights of third parties.
