

ZUSOLAT 1010/85

Basic material for the manufacture of washing and cleaning agents

Chemical composition

Fatty alcohol with 10 moles EO

Appearance: colourless liquid
Ionic character: nonionic

Typical data

Active ingredient: 85 %
Cloud point (1 % in dist. water): 87 to 92 °C
Solubility: soluble in water

Application

ZUSOLAT 1010/85 is used for the manufacture of washing, wetting, rinsing and cleaning agents, especially for the formulation of dishwashing agents and household, industrial and metal cleansers.

ZUSOLAT 1010/85 is further used as auxiliary product for the leather, textile, ceramic and paper industries.

Storage

Storage at low temperatures may cause turbidity which can be removed by gentle heating.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions they can serve only as a guide and are therefore offered without obligation. We ask you to observe the possible rights of third parties.
