# BLOOMING SPRING COLLECTION

Spring is the season of new beginnings: seedlings are pushing through the soil, fresh buds are blooming, animals awaken from hibernation ... nature comes back to life! The sky is blue, the green of the grass is echoed by the blossoming trees, and brightly coloured flowers are everywhere – this explosion of colours boosts our happiness. We are invigorated by the feast of sights, sounds and smells around us. The days are getting longer, and temperatures are rising – ideal conditions for playing sports or enjoying other activities in the open air!

Zschimmer & Schwarz celebrates this season with refreshing, caring and colourful formulations to protect your face from the first sunbeams or to give your cheeks a fresh pink hue as if you just spent an afternoon enjoying the sunshine. Welcome springtime with us!
