TEXTILE AUXILIARIES

ZETESAL LTS

Low Temperature Soaping
ZETESAL LTS

Excellent sequestering and after-soaping agent for reactive dyeings

The use of ZETESAL LTS allows soaping to take place at 70°C to achieve excellent wash fastness. The environmentally friendly, low-temperature soaping using ZETESAL LTS leads to significant savings in process time and energy.

**BENEFITS**

- Excellent soaping effect for reactive dyeings on cellulosics
- Eco-friendly soaping at 70°C possible
- Provides savings in energy and time
- Improves fastness properties

---

**Wash fastness at 60°C as per ISO 105-C03 on red and turquoise shade**
