ZETESAL EFA

Fixing agent for polyamide and polyamide/elastane

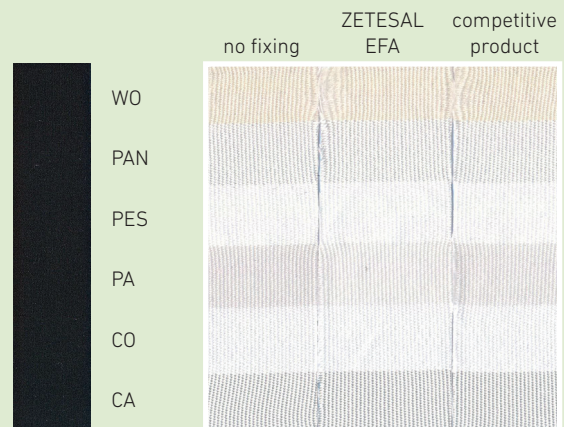

ZETESAL EFA is a special fixing and reserving agent for dyeing and printing of polyamide fibres which substantially improves wet and chlorine fastness. It has no negative influence on the hydrophilicity of the polyamide and only a negligible effect on the touch.

BENEFITS

- ▶ Ecological product
- ▶ Remarkable improvement of fastness to washing, water and perspiration
- ▶ No influence on touch and hydrophilicity of the polyamide material
- ▶ Stable to colour changes/yellowing
- ▶ Exceeds ZDHC requirements
- ▶ GOTS- and bluesign®-approved

FASTNESS TO WASHING AND WATER SEVERE

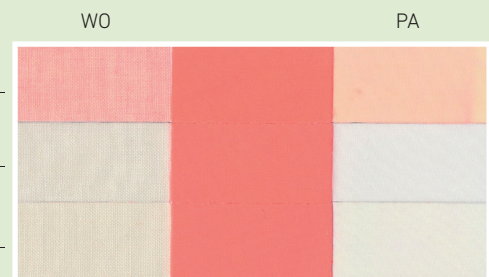

The pictures show improved fastness to washing and water which is offered by ZETESAL EFA compared to competitive products or no use of a fixing agent at all.

Polyamide/elastane – shade black (washing)
