Press Release

Zschimmer & Schwarz presents tailor-made digital printing inks at InPrint 2022 in Munich

The company from Lahnstein, Germany, showcases its extensive product portfolio, which includes pigment-based digital printing inks for the decoration and finishing of a wide variety of surfaces

Lahnstein, 24 January 2022 – The presence of Zschimmer & Schwarz at InPrint 2022, the International Exhibition of Print Technology for Industrial Manufacturing, is all about inkjet inks. The supplier of chemical auxiliaries from Lahnstein is exhibiting at the trade fair in Munich for the first time, with its motto being "Bringing your ideas to the surface". A comprehensive product portfolio for the printing and coating industry as well as application- and customer-specific solutions for primers, overprint varnishes and pigment inks for inkjet printing enable customers to decorate and finish a wide variety of surfaces. With many years of expertise in the field of chemical formulations and technical product applications as well as high levels of service orientation and environmental awareness, Zschimmer & Schwarz is a competent partner for the development of individual pigmented digital printing inks.

"As a developer and manufacturer of pigment-based inkjet inks and coatings, we offer our customers around the world tailor-made solutions that deliver the best results in the decoration and finishing of a wide variety of surfaces, such as ceramic tiles, textiles, technical glass and paper-based substrates", says Bastian Rudersdorf, Global Head of Digital Printing. "We look forward to showcasing our products for industrial inkjet applications in person at InPrint 2022. With versatility, sustainability, efficiency and know-how, we help our customers turn their visions into reality – just as our motto 'Bringing your ideas to the surface' promises."
