Z&S SUBSIDIARIES

Why?

Z&S has been growing significantly, and now it's time to **strengthen our global culture**, foster **team spirit** and create a more **collaborative work environment**. This initiative also addresses the sedentary nature of modern workplaces by promoting **healthier habits**

What?

Join a **6-week walking challenge** in which employees from all legal entities will track their daily steps **to virtually travel the Z&S Group's locations** around the world. Each stop unlocks intriguing insights: how many colleagues work there, what they produce for which business divisions ... and a lot more!
