

ZSCHIMMER & SCHWARZ MOHSDORF GMBH & Co. KG

GREAT HISTORY – ROOTS OF ZSCHIMMER & SCHWARZ

It all began in Chemnitz in **1894**.

The founders Otto Zschimmer and Max Schwarz laid the roots of today's **Zschimmer and Schwarz Group in Chemnitz** and the surrounding area. They established their business mainly by trading in auxiliary materials for the numerous tanneries, chemical, textile and mechanical engineering companies in the region.

Reliable delivery and personal contact were already part of the credo of the two founders at the time and still applies today.

After reunification, the founders' successors returned to their roots and **built up the plant in Mohsdorf from 1993**, establishing the **Textile Auxiliaries** and **Phosphonates** divisions there.
